

Noble on Newberry

Internet Service
Information Packet

IQ Machines welcomes you to Noble on Newberry. Like the other amenities provided by the property, the internet service is a cut above. Noble on Newberry has partnered with IQ Machines to deliver a superior Internet experience where you will enjoy faster data service.

Internet

Your Internet connection is powered by a dedicated fiber-optic network designed specifically for Noble on Newberry. All apartments are equipped with Wi-Fi points which broadcast the Noble on Newberry network. You may connect your devices via Wi-Fi nearly anywhere in the buildings using the username and password provided to you by the leasing office. This username and password combination is unique to each resident and should not be shared with other residents. Please note that your use of this Internet connection must comply with IQ Machines' Acceptable Use Policy, which is provided on the last page of this packet.

When connecting to the *Noble WiFi* network, you will be presented with a certificate from our central authentication server. Please ensure you accept or trust this certificate when connecting your device. Otherwise your device may fail to join the network.

Though uncommon, some devices such as Android may ask you for additional information when connecting to *Noble WiFi* such as the EAP method and certificate selection. In this case please use the following settings:

EAP method: PEAP

CA Certificate: None/Don't validate

Identity: Your username provided by the leasing office

Password: Your password provided by the leasing office

There may be cases where a device supports Username and Password authentication but still fail to join the network for various reasons. In this case we recommend following the instructions below and registering those devices for the PSK network.

Some devices such as TVs, game consoles, streaming devices, printers, and digital assistants will require you to first add the device's unique wireless Media Access Control (MAC) address to the network before the device will connect to the Noble on Newberry network. Using our website below, you will be able to add your own devices to Noble on Newberry network. Please note this process is only required for devices which will not connect to *Noble WiFi* using your regular username and password.

Visit <http://nobleonnewberry.igmachines.com> and sign in with your username and password. Please note this is the same username and password you use to connect to *Noble WiFi*. After inputting the wireless MAC address of your device to the website please connect that device to the WiFi titled *Noble PSK* and use the word *password* as the password.

Additionally, some devices support a feature called Private Address or MAC Randomization which can cause connection issues with certain networks. Should your device not connect after trying all of the above methods, please disable these features for the *Noble WiFi* and *Noble PSK* networks on your device and try connecting.

TV

We excited to announce we offer several TV package options for residents of Noble on Newberry. If you are interested in purchasing TV service please send us an email to support@iqmachines.com. A representative will contact you with our package options.

Support

What if my computer does not connect to the Internet?

The Internet connections at Noble on Newberry have been designed to automatically connect to your computer and other devices if they are configured with default network settings. If your connection is not working, first check that:

1. The wireless/wired network connection on your device is enabled.
2. The connection is set for "DHCP" mode. This setting allows your computer to automatically be assigned a unique IP address by the network.

What if I need additional help?

At IQ Machines, our goal is to provide a truly superior experience for our customers. Our equipment is automatically monitored 24 hours every day to ensure it is working correctly. If you are experiencing difficulty with your internet do not hesitate to contact us. All calls received by 5:00PM EST will be returned same day by an IQ Machines technician who can help resolve your problem.

Email: support@iqmachines.com
Phone: (352) 554 - 9700

When contacting us, please provide:

- Your Name
- A phone number where you can be reached
- Your apartment complex and city
- Building number and apartment number
- A brief description of the problem

Acceptable Use Policy

This Acceptable Use Policy applies to all persons and entities (collectively, "customers") using the products and services of IQ Machines LLC ("IQ Machines") including Internet service. The policy is designed to protect the security, integrity, reliability, and privacy of both the IQ Machines network and the products and services IQ Machines offers to its customers. IQ Machines reserves the right to modify this policy at any time, effective immediately upon posting of the modification. Your use of IQ Machines' products and services constitutes your acceptance of the Acceptable Use Policy in effect at the time of your use. You are solely responsible for any and all acts and omissions that occur during or relating to your use of the service, and you agree not to engage in any unacceptable use of the service.

Prohibited Uses

Unacceptable use includes, but is not limited to, any of the following:

1. Posting, transmission, re-transmission, or storing material on or through any of IQ Machines' products or services, if in the sole judgment of IQ Machines such posting, transmission, re-transmission or storage is: (a) in violation of any local, state, federal, or non-United States law or regulation (including rights protected by copyright, trade secret, patent or other intellectual property or similar laws or regulations); (b) threatening or abusive; (c) obscene; (d) indecent; or (e) defamatory. Each customer shall be responsible for determining what laws or regulations are applicable to his or her use of the products and services.
2. Installation or distribution of "pirated" or other software products that are not appropriately licensed for use by customer.
3. Resale of IQ Machines' products and services without the express prior written consent of IQ Machines.
4. Deceptive marketing practices.
5. Actions that restrict or inhibit anyone - whether a customer of IQ Machines or otherwise - in his or her use or enjoyment of IQ Machines' products and services, or that generate excessive network traffic through the use of automated or manual routines that are not related to ordinary personal or business use of Internet services.
6. Introduction of malicious programs into the IQ Machines network or servers or other products and services of IQ Machines (e.g., viruses, Trojan horses and worms).
7. Causing or attempting to cause security breaches or disruptions of Internet communications. Examples of security breaches include but are not limited to accessing data of which the customer is not an intended recipient, or logging into a server or account that the customer is not expressly authorized to access. Examples of disruptions include but are not limited to port scans, flood pings, packet spoofing and forged routing information.
8. Executing any form of network monitoring that will intercept data not intended for the customer.
9. Circumventing user authentication or security of any host, network or account.
10. Interfering with or denying service to any user other than the customer's host (e.g., denial of service attack).
11. Using any program/script/command, or sending messages of any kind, designed to interfere with, or to disable a user's terminal session.
12. Failing to comply with IQ Machines' procedures relating to the activities of customers on IQ Machines-owned facilities.
13. Furnishing false or incorrect data on the order form contract (electronic or paper) including fraudulent use of credit card numbers or attempting to circumvent or alter the processes or procedures to measure time, bandwidth utilization or other methods to document "use" of IQ Machines' products or services.
14. Sending unsolicited mail messages, including the sending of "junk mail" or other advertising material to individuals who did not specifically request such material, who were not previous customers of the customer or with whom the customer does not have an existing business relationship (e.g., E-mail "spam"); or distributing, advertising or promoting software or services that have the primary purpose of encouraging or facilitating unsolicited commercial E-mail or spam.

15. Harassment, whether through language, frequency, or size of messages.
16. Unauthorized use or forging of mail header information.
17. Solicitations of mail or any other E-mail address other than that of the poster's account or service, with the intent to harass or collect replies.
18. Creating or forwarding "chain letters" or other "pyramid schemes" of any type.
19. Use of unsolicited E-mail originating from within the IQ Machines network or networks of other Internet Service Providers on behalf of or to advertise any service hosted by IQ Machines or connected via the IQ Machines network.
20. Exporting, re-exporting, or permitting downloads of any content in violation of the export or import laws of the United States or without all required approvals, licenses and exemptions.
21. Hosting any services (for personal or business purposes) using IQ Machines network. The use of servers that enable services to be rendered to other users within or outside of the IQ Machines network is prohibited.

No failure or delay in exercising or enforcing this policy shall constitute a waiver of the policy or of any other right or remedy. If any provision of this policy is deemed unenforceable due to law or change in law, such a provision shall be disregarded and the balance of the policy shall remain in effect.

Abusable Resources

Upon notification of the existence of an abusable resource (e.g., open news server, unsecured mail relay, or smurf amplifier), the customer shall immediately take all necessary steps to avoid any further abuse of such resource. Any abuse of an open resource that occurs after the customer has received such notification shall be considered a violation of this policy and enforced as such.

Enforcement

IQ Machines may immediately suspend and/or terminate the customer's service for violation of any provision of this policy upon verbal or written notice, which notice may be provided by voicemail or E-mail. Prior to suspension or termination, IQ Machines attempts to work with our customers to cure violations of this policy and ensure that there is no re-occurrence; however, IQ Machines reserves the right to suspend or terminate based on a first offense.

Electronic Communications Privacy Act Notice

IQ Machines makes no guarantee of confidentiality or privacy of any information transmitted through or stored upon IQ Machines technology, and makes no guarantee that any other entity or group of users will be included or excluded from IQ Machines' network. In addition, IQ Machines may periodically monitor transmissions over its network for maintenance, service quality assurance or any other purpose permitted by the Electronic Communications Privacy Act, P.L. No. 99-508, as amended.

Questions?

If you are unsure of whether any contemplated use or action is permitted, please contact IQ Machines at support@iqmachines.com.
